KMSpico

Download KMSpico 11 Final Windows 10 Activator [2020]

22 21 hours ago  0 14 minutes read

Windows 10 Activator or KMSpico is the same tool that is used to activate Microsoft Products such as Microsoft Office & Other Windows. This is the only free Software that is 100% bug-free, and there is no virus or malware included.

It is a famous and very well-known activator among the individuals as it provides you with the real-time activation notification.

This tool is 100% safe from the fraud protection, and you will never get caught while using it even though you receive the system updates of every Windows, which helps you to protect your computer. As you know that when you receive the updates, it will fix some glitches, protect from viruses & other new features add-in that update.

What Is KMSPico

Windows 10 Activator or **KMSPico** is the Same tool which can be used to activate the Windows. Instead of only activating the Windows, this tool is also able to activate the Microsoft Office. As you know that there are a lot of other activators available on the internet, which claims that they don't include any virus. But the truth is that they contain risky viruses and malware which damage your computer badly. For this reason, most of the people don't use these types of activators as they don't trust them.

But the KMSPico is the only trustworthy tool that is trusted by many people on the internet.

If we search for the best **Windows 10 activator** on the internet, you will find the KMSPico is above them. This is because it is only the best activator available. It works on the principle which is discovered by the Microsoft owner Bill Gates. The principle is known as the Key Management Server. The name of this tool is derived from this method.

In the previous time, there were bigger companies that own a lot of computers in their office. So, when they install fresh windows, they felt a difficult and consuming task while activating each Windows separately. In this way, Bill Gates launch this Key Management Server system which connects every PC to the single server,

This server has a built-in product that is added after you install a fresh Windows. So, whenever the PC, which is connected to that server, gets automatically activated because of the key included in the server. KMSPico works the same as it modifies the hosts' file and then creates a custom KMS Server for your PC.

Why Use KMSPico Windows 10 Activator

As you know that the Microsoft Windows & Office comes with the 30 days of trial. When the trial expires, you will be restricted from using most of the features of Windows as well as the Office.

For example, if your trial for Windows expires, you will then be unable to change the themes, you will notice the activation watermark on the desktop. Even there are a lot of features that you are restricted to use.

So, when that trial expires, you need to pay money so that you can buy the license key. This key will be used to activate these products so that you can enjoy all the features for the rest of your life. What if you don't have enough money to buy the license? Is there any way to use them freely without paying a penny?

Yes, of course, KMSPico is the only solution to avoid this problem. It is the free tool that is used to activate all the latest as well as the old versions of Office & Windows.

When you activate your Office or Windows with the KMSPico activator, you will be able to use all the features. Instead of this, you will get a genuine license for Windows so that you never get caught and banned by Microsoft.

Who Developed KMSPico

KMSPico is the only trusted and the best Windows 10 activator available on the internet. It is developed by Team Daz, which is a very well-known hacker team.

They have developed a lot of activators like KMSPico, for example, **Windows 7 Loader**, **KMSAuto Net** & **RemoveWAT**.

These developers have contributed a lot in the field of technology. The best contribution is KMSPico, which most of the people are using and is the gift for all the Windows users. They make this tool free so that every single people can get the benefit from this.

Windows 10 Activator KMSPico Features

If you want to learn more about this awesome activator, then here is the list of the features which KMSPico provides. You need to read all these so that you can see what you are actually going to download. Also, you will learn the value of this simple and cool Windows 10 Activator.

Activate Windows

KMSPico allows its users to activate the Microsoft Windows Operating System. This is the most usable Operating System which everyone is using around the World.

The problem is that it is paid and you have to buy the license to use it. But after downloading this activator, you will then activate your Windows without paying money.

Activate Office

Microsoft Office is the most useful Office application in the bank and in many other places. Just like Windows,

it is also required you to pay money so that you can get the license key to use it forever. However. You can even activate any version of Microsoft Office by using it.

N-Bit Supports

If you are wondering where you can find the KMSPico to activate x32 or x64 Windows or Office. Then don't worry, this tool supports both the architectures. Now, this makes it easier to activate both the architecture's Windows or Office with a single activator.

Genuine Activation

In most of the activators, they claim the Genuine activation, but the reality is that they only give you the fake activation. By using those tools, you will notice that you are not getting updates from Microsoft.

Also, there is a risk of getting banned by the Microsoft Servers. But after you use this tool, you will get the 100% Genuine activation and even though you will get the updates from Microsoft as well.

Lifetime Activation

Yes, you heard that right KMSPico provides you with lifetime activation. This means that you don't need to activate the Windows or Office again and again after the specific time.

In most of the activators, they only expand the date of trial by changing the Registry files. This activator is the only permanent activation solution for Office & Windows

Free Of Cost

This awesome activator is 100% free and can be used in as many machines as you want. There is no restriction on the program to use on the specific numbers of machines.

Virus Free

It is a 100% virus-free Windows 10 activator, and there is no risk of damaging your computer. This tool is also scanned by the Virus Total and found no virus in it. It is the only true activator which doesn't contain any malware, trojans or keyloggers.

No Fraud Detection

Microsoft has just launched the program which detects the Windows, which are activated by fraud. When they detect it, they immediately take action and ban its machine as well. In the KMSPico, there is no risk of being caught from Fraud Detection.

No Skills Needed

If you are wondering, it is difficult to use this tool, then you are wrong. This tool doesn't require you to have any special skills to operate it. It is very easy to use and is simple as compared to most of the activators.

Light In Size

This tool is so small in size and doesn't occupy the huge space of your hard disk. The total size of this activator is below 5 mega bites. If you don't have much space in your hard disk, then this is the only best solution for this.

Portable

If you are still worried about the virus or malware, then here is the best option for you. **Portable KMSPico** is the only way that can be used to activate Windows or Office without installing it in your machine.

Full Standalone

If you are not connected to the internet, or you are at the place where there is no internet or WiFi. Then this tool is also helpful at that place because it doesn't require any internet connection. KMSPico works totally offline and online, both depending on your situation.

Windows 10 Activator

This Tool Is Used to Activate Windows 10 Specialty, This Is Best activator for this Version of windows, Becoz you don't need to purchase any key to enjoy all premium features. Using this awesome Software, you are able to get all Key Setting Free without doing any illegal things with your computer.

Pros & Cons

This is the list of some pros and cons of KMSPico, which I found. If you also find any further cons or pros, then please let me know in the comment section so that I can also add it here.

Pros

- Free of Cost
- Easy To Use
- Activate Windows
- Receive Updates After Activation
- Virus Free
- Activate Microsoft Office
- Supports Both Architectures
- No Advertisements
- Scanned & Trusted by Virus Total
- Can Be Removed After Activation
- No Internet Connection is Required
- Don't Need Product Keys for activation

Cons

Some Antivirus Detect it as a Virus (this is because activators are blacklisted)

Download KMSPico Windows 10 Activator

I am sure you are curious to download this awesome Windows 10 Activator. If yes, then don't worry because here I am going to share with you the link of this activator where you can easily download it.
Just like the other websites, we never use any Link Shorteners or any other types of ads in download links. The link which is provided on our website is 100% free of these ads and is a direct link.

[Download KMSPico](#)

Even though if you still don't know how to download KMSPico. Then here I am going to provide you with a short but meaningful guide. In this guide, you will learn how you can easily download Windows 10 activators from our website.

Ok, so here is the step by step guide:

First of all, you need to click on the button located below with the "Download KMSPico" label.

Now when you click on that button, you will be then redirected to the Download page.

In this download page, you will find another button labeled as "Download Now."

Click on that download button, and then you will see the Mediafire link.

When it completely opens the Mediafire Link, you then find a download button in Mediafire.

Click on it, and it will take 5 seconds to start downloading your file.

After completion of 5 seconds, it will then ask you to choose the location where you want to save the file. It is recommended to save your file on the desktop so you can find it easily.

After choosing the file now, you can simply click on save, and it will then start downloading. The downloading time varies on your internet connection, so wait until the download completes.

That's it you have now successfully downloaded the KMSPico Activator. Now it's time to know how you can activate the Windows or the Microsoft Office using it.

For this, you need to check out the below activation guide.

Activate Windows 10 Using KMSPico

So now, after downloading this activator now comes the main part of this article. Which is how to activate Windows 10 & MS Office by using KMSPico.

Before proceeding, makes sure to read the features of this tool and also read about it above. After this, you can then know what you are actually going to do.

Otherwise, you may feel unsafe while following some of the below steps.

Ok, so here are the steps to follow:

1. First of all, you need to **disable your Antivirus or the Windows Defender**. This is because some of the AntiVirus programs have blacklisted KMSPico.

Note:

To disable Windows Defender, you need to open **Start Menu** then search for **Settings**.

In settings, scroll down to the **Update & Security**. Now from the right side, click on the **Windows Defender** & then click on Open Windows **Defender Security**

Center.

Now click on the **Virus & Threat Protection** and then click on the **Virus & threat protection settings**. From there, simply turn off the **Real-Time Protection**, and you are done.

2. Now extract the zip file which you download from above, and you will see a new folder.
3. Open that folder, and then you see KMSPico.exe file, just right-click on it and run it as Administrator.
4. It will then open an installation window where you need to follow the instructions as you usually do.

5. Now when the installation is completed, you will then need to open the KMSPico program. To do so, you need to open the **Start Menu**, and then you find the shortcut at the top. Otherwise, you can even search for it in the start menu search bar.

6. Now Open Kmspico and you will see program sound like a charm then simply click on the **red button** and you ready to go windows will activate thin 2 seconds

When your computer is restarted now, simply right click on **My Computer** and then click on the **Properties**. Scroll down at the bottom, and here you will see the status of your Windows.

Activate Windows 10 Using KMSPico

Now let's have a look at the activation process for the **Microsoft Office**. To do so, you need to follow the below steps carefully.

First, you need to restart your machine if you just activated the Windows Operating System.

After you restart now again, you need to disable the Windows Defender so that you don't face any problem.

Now you need to first open any product of Microsoft Office like MS Word, or MS Excel depends on you.

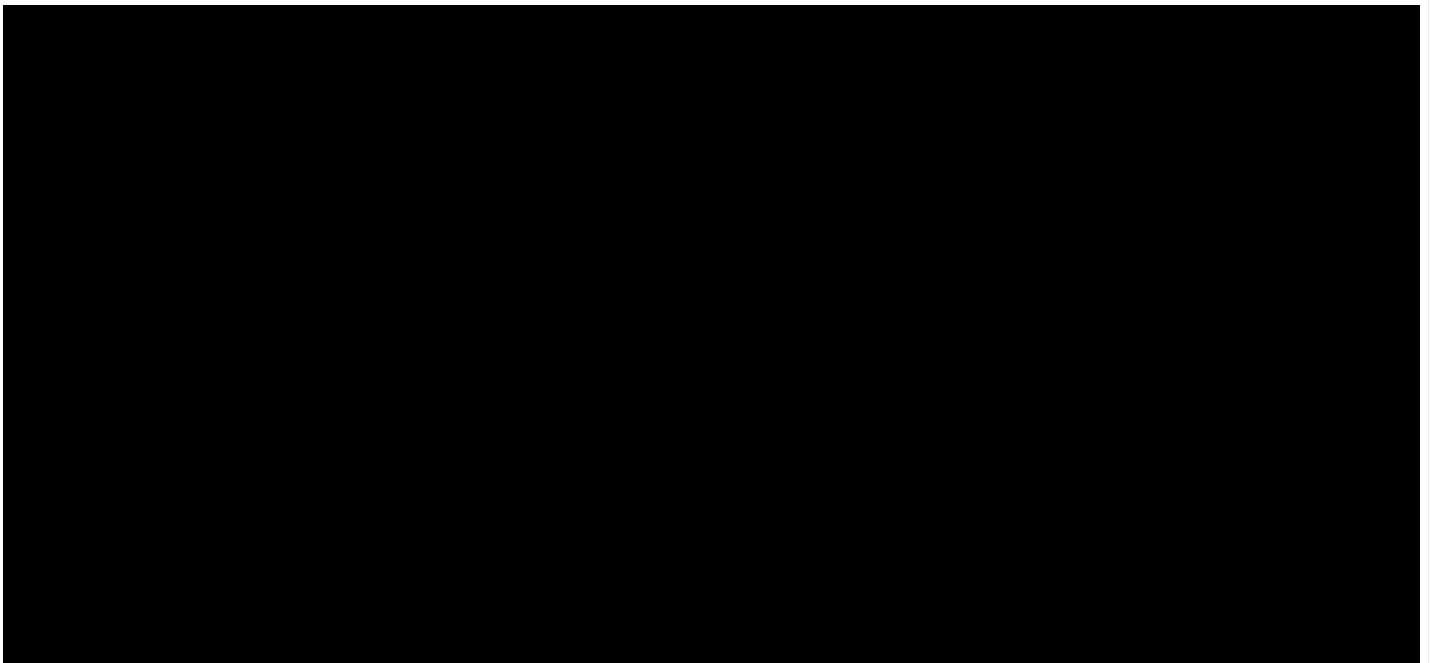

After this, you need to open the **Start Menu** and then search for the KMSPico in the search box. Even you can scroll down and see the folder of KMSPico below.

From that folder, open KMSPico.exe or from the search result and then right-click on it and run it as Administrator.

Here you will notice the **Office** logo, which means that it successfully detected by the activator. Now simply click on the red button and then wait for few seconds to complete the process.

Then you will listen to the notification saying **"Affirmative"** and later **"Program Complete."**

This means that you have now successfully activated the Office. To check the status, just restart your computer and after the reboot opens the Word or Excel and click on file located right side above. From there, you see the Account option located left side below click on it, and then you see the account information.

How to Uninstall KMSPico

If you just activated your Windows and Microsoft Office and now you want to uninstall this Activator. But somehow you don't know the right process, then here are some methods which you can use. This is because most people still don't believe in this tool; that's why it is necessary to uninstall it after your work is done. Also, don't worry about the activation. It won't be deactivated as it is permanent. You can use these products as long as you are installing new fresh windows. When you install the new fresh copy of the Windows operating system, then you again need to activate it as it will remove all the registry keys.

Ok, so here are the methods which you can use:

Uninstall KMSPico Using Uninstaller

This is the method of Uninstalling from its own built-in uninstaller. Here are the steps which you need to follow for uninstalling it.

1. Open the **Start Menu** from the taskbar or press the Windows Key.
2. Now scroll down and find the KMSPico folder, then click on it, and you see all the programs.
3. Here you will see a program Labelled as **Uninstall** with the **Recycle Bin** icon just clicks on it.
4. It will then open a new Windows, where you will find three options. First is Reinstall, second is Repair, and third is the Uninstall.
5. Tick the Uninstall and then click on the next button below. Now, wait for a few seconds, and the program will be automatically uninstalled from your computer.

Uninstall KMSPico Using System

This is method can be applied through Windows' own application management service. You are not required to install any program on your computer as it is the built-in Feature.

Here are the steps which you are needed to follow:

Open the Start Menu and search for the **"Run"** in the search box or press the **Windows Logo Key + R**.

It will open the Run menu now there you need to type **"Appwiz.Cpl"** (without quotes) & press enter.

Here you will see all the installed applications in your machine, scroll down, and find the KMSPico.

Now double click on the icon, and it will open Uninstaller windows. Follow the instruction on the screen, and then it will take some time to uninstall.

That's it you have now successfully uninstalled KMSPico from your computer. If you are still unsure, then there is another method below, which can be used to remove its registry files as well.

Uninstall Using IObit Uninstaller

This is another method that is used to uninstall and even removing the registry files as well. By using the IObit uninstaller, you will be sure that it is completely removed.

Ok, so here are the steps to follow:

You first need to download IObit Uninstaller from the following URL (**Download IObit Uninstaller**).

Now install it in your machine as you install other Software, the installation process is not different.

When the installation is completed, simply open the program and register it if you have purchased the license.

After you open the program, you will see all your installed applications. Now scroll down and find the KMSPico activator and then tick that Software.

When you select the activator, you then see the **Uninstall** option below. Just click on that, and it will open a new pop-up window for your confirmation.

Here is the main part in this Window you need to select the option **"Remove Additional Files."** Then simply again click on the Uninstall Button in that Window.

Now, wait for sometimes it will then automatically uninstall KMSPico and remove its additional files as well. All the process is automatic; you don't need to do anything else.

When the uninstallation process is completed, you will see a message there, and that's it you are done now.

Frequently Asked Questions

If you just read about the features and the work of KMSpico, but you are still confused about something. Then here I am going to discuss some most frequently asked questions around the internet. You can also check for the answer if you have any; otherwise, if you are unable to find, then you can simply ask in the comment section.

Q1) Can I get the windows to update after using this?

Yes, of course, you will get all the latest updates from Microsoft and get the security update as well. This way, your computer will be up to date and free from viruses and trojans.

Q2) Do I need to have an internet connection for activation?

No, the internet is not required all the process is done totally offline.

Q3) KMSpico Windows 10 Activator is not working? What should I do?

You need to reinstall the program. Sometimes you encounter the problem, which avoids it from working. Otherwise, if this not work, then you need to install a fresh new Windows.

Q4) I have an original license for Windows? Will it break my license if I try to activate the Office?

The program is designed in a way that when you try to activate the Windows or Office. This will first check if there are any available licenses or not when you have the original license, it automatically avoids it and doesn't make changes. So, in this way, you can simply activate Office without breaking your license.

Q5) Where can I find the log files for KMSpico?

You can locate the log files by going to **My Computer -> Local Disk (C) -> Program Files -> KMSpico -> Logs**.

Q6) Will this tool activates the Windows permanently?

Well, for now, in Windows 10, 8, 8.1 & 7, whenever you install the fresh Windows, it will automatically activate it. So, the answer is yes, it is the permanent solution.

Q7) It successfully activates, but the "Activate Windows" watermark is still there?

If you still see that watermark, then simply reboot your computer, and it will be disappeared.

Q7) Is this the best windows 10 activator?

Yes, Right now It's the best Activator For Windows 10,

Final Words

KMSpico Activator For Windows 10 is the gift for all those people who are using the Windows & the Microsoft Office on a daily basis.

This solves you a lot of time and a huge amount of money as well. It is the only best **Windows 10 activator** that doesn't contain any type of virus or malware. You can use it on as many machines as you want. There is no restriction on software usage.

If you have missed anything, then it is recommended to go and check them. You should also check the features of the Windows 10 activator, so you learn more about it.

If you just skipped the installation and activation process, please go and read it again, so you don't make any mistakes. I have written the full step by step guide on how to install KMSpico and how to activate Windows 10 as well.

If you just liked my work, then please share it with your friends because sharing is caring. Also, bookmark my website so that you don't miss any update about it. You should check my website once per month so that if we update the link, you receive it first and get an updated version.
